

SCENARIO

You are a member of a space crew originally scheduled to rendezvous with a mother ship on the lighted surface of the moon.

However, due to mechanical difficulties, your ship was forced to land at a spot some 200 miles from the rendezvous point.

During re-entry and landing, much of the equipment aboard was damaged and, since survival depends on reaching the mother ship, the most critical items available must be chosen for the 200-mile trip.

YOUR TASK

Below are listed the 15 items left intact and undamaged after landing.

Your task is to rank order them in terms of their importance for your crew in allowing them to reach the rendezvous point.

Place the number 1 by the most important item, the number 2 by the second most important, and so on through number 15 for the least important.
